

Mr Jeremy Hill

IDF President

**General introduction to IDF
and its activities of relevance
to the feed industry**

Organiser

Technical
Support

Host

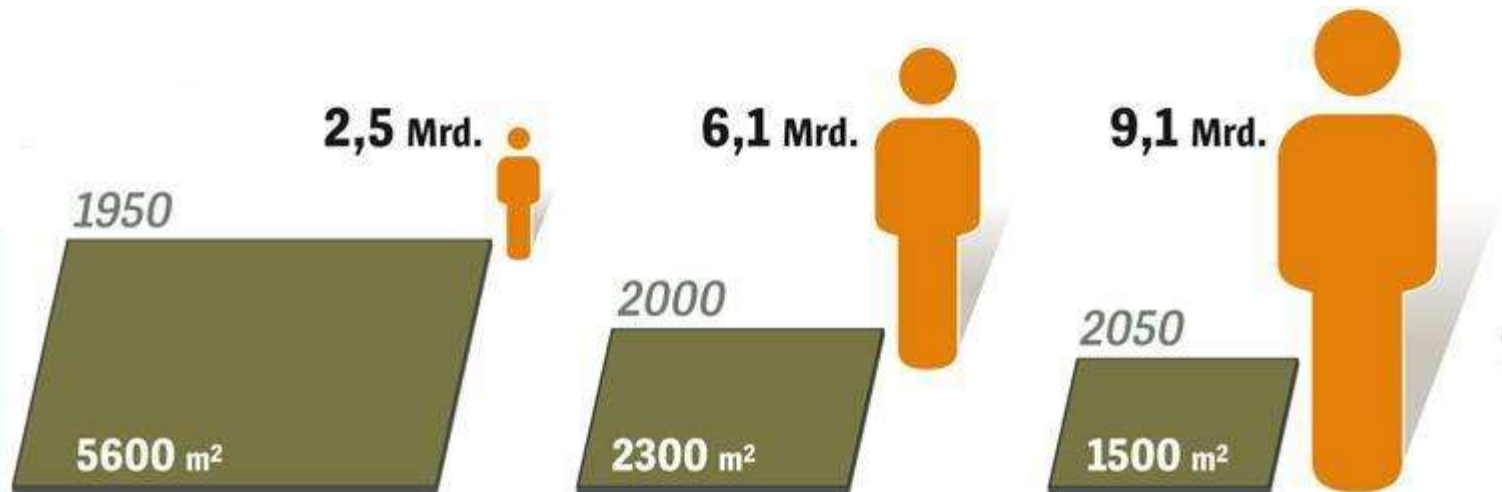

Global Expertise in Dairy

IFIF 4th Global Feed and Food Congress 2013

Sun City (ZA), 10-12 April 2012

By Dr. Jeremy Hill, IDF President

Global challenge: Food Security and Nutrition

Available arable land per capita (Note: Mrd. = bn.)

According to FAO the world demand for animal protein (milk, eggs, meat) will increase by about 50% by 2020 and is expected to double by 2050 !

Global Solution: Nutrition Security

More for Less

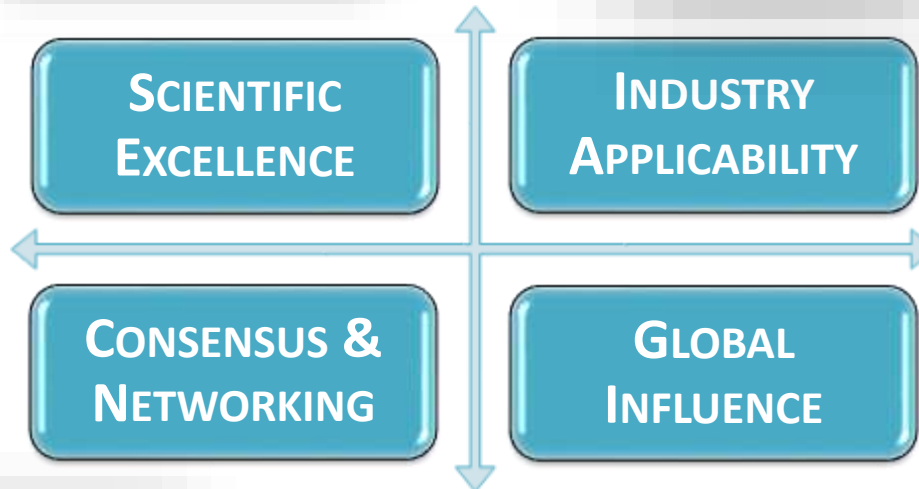

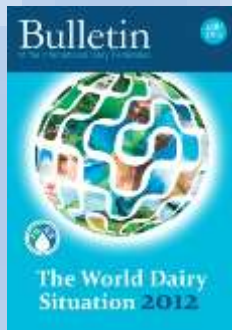

Production of more nutritious foods with less calories for less cost and with less environmental impacts in terms of GHG emissions, land, freshwater use and energy.

IDF - Global expertise in dairy

- 1000s of Experts
- Global Membership
- Covers Entire Dairy Chain

GLOBAL INFLUENCE

International Standards Organization (ISO)

- Development and publication of joint IDF/ISO International Standards for methods of analysis and sampling for milk and milk products

Codex Alimentarius

- Contribution to the elaboration of Codex standards and guidelines through IDF scientific and technical expertise & in partnership with others

Food and Agriculture Organization of the United Nations (FAO)

- Close cooperation on sustainability issues: expert participation and joint events and publication , e.g. IDF/FAO Guide to Good Dairy Farming Practice

World Organisation for Animal Health (OIE)

- Mutual contributions for the elaboration of guidelines and best practices in animal welfare and good farming practices

GLOBAL EXPERTISE IN DAIRY

GLOBAL EXPERTISE IN DAIRY

WORKING AREAS IN COLLABORATION WITH IFIF

CURRENT IDF/IFIF COLLABORATION

FOOD SAFETY & FOOD STANDARDS: sharing of positions and coordination of input to Codex on new ***Guidelines on Application of Risk Assessment for Feed*** and ***Guidance for Governments on Prioritizing Hazards in Feed***

CURRENT IDF/IFIF COLLABORATION

FARM MANAGEMENT / ANIMAL FEEDING: *IDF/FAO/IFCN World map of animal feeding systems in the dairy sector and up-coming new work on IDF/FAO Guide to Good Animal Feeding in the Dairy Sector*

CURRENT IDF/IFIF COLLABORATION

ENVIRONMENT: LCA methodologies used for improving sustainability performance - *FAO Partnership on Environmental Benchmarking of Livestock Supply Chains*
